## Join a project on the DEEP system

To join an existing project on the DEEP system please follow these steps below:

1) Login with your LDAP account on the ?JuDoor portal

2) Klick on "Join a project"

3) Type in the ID of your project. DEEP-SEA members please use "deepsea". IO-SEA members please use "iosea". Non-project members please use "deepext".

4) Once you are accepted by the PI of your project you have to sign a usage agreement:

After this you have access to the system.
