

Get an account

- i. Go to JSC website: http://www.fz-juelich.de/ias/jsc/EN/Expertise/Services/JSCOnline/ComputingTime/_node.html
- ii. a. For JSC members: Use "User accounts on the central IT-systems and workstation groups" under the section "Forschungszentrum Jülich Institutes' Quotas"
 1. For non JSC members: Use "User accounts on the central IT-systems and workstation groups" under the section "Guests, Staff of External Corporations"
- i. Non JSC members have to follow the email verification. Please enter your full email address. You will then get an email with a link to go on with the registration.
- i. Please enter your personal data and the address of your institute into the form. The hosting institute is "JSC".
- i. The next step is to fill the account form (order of fields might differ for internal users):
 - Choose System: deep (DEEP Cluster)
 - [extern only] Intended Purpose: DEEP-EST
 - Personal data: no
 - Preferred Login-Name: If you already have an account on another HPC system at JSC please choose the same account name here. If not, please leave this field blank.
- Do not use a password, instead upload your public ssh key (for security reasons, please, use password protected keys only !)
- [extern only] Contact person: e.suarez
- [Project/Accountingnr?](#): Algorithmen, Architekturen und Anwendungen
- Program-Oriented-Promotion(POF): Key Technologies
- Hit "apply" button
- i. Send a signed copy of the form to the JSC dispatch via fax: +49-2461-61-2810
- i. Once you got the confirmation that your account was created you can login to deep.fz-juelich.de
