Using the DEEP-EST Benchmark Suite

Pull the benchmark suite from

```
ssh://git@gitlab.version.fz-juelich.de:10022/DEEP-EST/WP2.1_Benchmarking/deep-est_benchmarks.git
```

and switch to the master-branch. Read the file README.md to get information on how to use the benchmark suite. If something is not working or unclear or suboptimally configured please contact the people stated within README.md.
